ordinary. We are told by the "My Policy" organs of yester-day that the "Copper-Johnsons" held a "a full assembly of leading citizens" some place in this city on Saturday, to elect delegates to the "My Policy Convention which is to be held in Philadelphia on the 14th of August next. It is not stated where the "full assembly" was held. Nobody, save a few Conservative fossils, about a baker's dozen in number, knew anything, or cared anything about the meeting. It was gotten up and engineered by a few politicians, who have been ready for the last five years to attend every Conservative, McClellan-antiemancipation or anti-Free State Constitution meeting, and offer a string of prosy "neutrality" style of resolutions, about as much in conformity with the spirit of the American people as the ancient mummy in the State House Library. The meeting was presided over by Speaker Heiskell, of the House

of Representatives, an active McClellanite, and a bitter opponent of the emancipation proclamation of Mr. Lincoln, and of the Free State Constitution that "the following nominations were made, and | French wars. unanimously approved: For Middle Tennessee-Judge John S. Brien and

Had the counsels of these gentlemen prevailed, the system of slavery would now be in existence, supported by Federal authority through-

### Flying Correspondence.

Washington to Quebec-Interresting Trip. Correspondence of the Knexville Whig.

St. Louis Hotel, QUEBEC, C. E., July 2d, 1866. Editors Whig :- Twelve days ago I left the National Capitol for the sake of coolness, recreation, and instruction. I thought I would go to Canada, it looked so inviting on the map. I came, though like an erratic school-boy, I tarried on the way.

A miserable dusty ride of ten hours by rail took us to New York, which is much less inviting, with the mercury in the nineties, then Washington; for Washington has wide streets, ample "openings," affording unparalleled ventilation, and the population is not over crowded with human beings. With is about as undesirable a place to be in during "the heated term," as any spot on the Continent. It is no wonder those of the citizens who can do so, go

ompanied by a remittance, except in cases where the adver-user is known to be punctual. No one taking a pleasure trip North, should fail to take a ride up the Hudson by day-light. The day was fine, and the voyage seemed more like a day-dream than a reality, so lovely are the mer vesture. The distance from New York to Al-

bany by river is 150 miles, by railroad only 44. We took the cars from Albany to Fort Edward, fifty miles North; from there drove by carriage to Lake George, 14 miles distant. Our visit to that beautiful spot, clustered around, as it is, with many historical associations will long be remembered.

The Lake is 36 miles long, with a varying width of from one to six and seven miles, and its waters the purest and clearest of any Lake in the world. The scenery is remantic in the highest degree. The William Henry Hotel, a first-class house, capable of accommodating 800 guests, stands at the head and overlooking the lake. Near by, on the

bank, is the site of the old Fort of that name, where the brave Col. Wm. Henry was killed. #### The White House Conspiracy--- The President's Advisers.

The Washington correspondent of the Cincinnati

"The number of calls which have appeared in this city within a few days is unprecedented. The call of the Randallians for the Philadelphia Convention came first. The call of the Democrats and Copperheads combined came next; and their united organization is beginning to be known here as the Copper-Johnsons. L. D. Campbell, Randall and Blair then issued a call explaining that the first meant that half the delegates should be from those who supported Lincoln and Johnson, and half from those who didn't. Next came a call issued from the White House by Messrs. Cooper and Patterson, and two other Tennesseeans, to the people of Tennessee, asking them to rally to the support of the Philadelphia Convention. This exhausts the calls of the discontented. These calls for help indicate the despermany "Washington Canal" nuisances, (which Wash- ate character of the situation. Yours, truly, BRIDGES, HENDERSON & DANIELS. Fritan, Itawaba co., Miss., Aug. 25, 1860. Mesars. Davall-We have been running the portable engine, saw mill and corn mill we purchased of you some months ago.

We average in tough, scrubby pine, from \$,000 to 10,000 feet of lumber per day, and could, were we to hurry our hands, saw

twelve thousand feet per day. We grind 20 to 20 bushels of corn per hour.... Many persons have rode twenty and thirty miles to see our mill. She is the wonder and admiration of all. We cheerfully recommend them to those in want of mills G. A. HAMILTON & CO Messrs, buvail - I profest to know but little about machinery, but take pleasure in bearing testimony to the fact that the portable engine and saw mili I purchased of you, can, in my opinion, cut three times as much lumber in a day as any other mill in the country. We have sawed 750 feet in thirty minutes. We can saw from 1,500 to 1,800 feet per hour.

H. B. HARRISON.

Local G. S. Weekly es., Test., March 15, 1859. Messrs, Duvall-On last Saturday last we cut semething over 15,000 feet of inch poplar lumber; worked eleven hours fortyfive minutes; N. Nash attended the saw. We cut this amount
from logs sawed from strongs, and can do it every day with
good logs and hands.

DR. E. J. SHANNON. Messrs, J. & J. H. Duvall—Gents: The portable engine and saw mill that we purchased of you gives entire satisfaction. We have, in twenty days after starting it up, sawed 200,000 feet

of frozen hemlock finber, which we call the best sawing ever done in Northern Pennsylvasia. The mill was run by Mr. Hardesty. GRIFFITS & STONE. We also have for sale Mills, Water Pow-made of first class material; workmanship the same, and to saw from 6,000 to 10,000 feet of Lumber per day, (say ten ers and Sites for Manufactories, Town and Orders solicited.
